SRM Welkin School, Sopore, Sopore

Employment

Academic Projects & Personal Development   Present

- Practical exposure in building applications using Java and databases.
- Worked with GitHub for version control and project collaboration.

Projects

Student Attendance Management System (Java)
Built a desktop-based attendance management application with login authentication. Structured with separate frontend and backend modules.

Portfolio Website
Designed and hosted a personal portfolio showcasing projects and skills using GitHub Pages.

Mood-MIX (Android Audio DSP App) – Ongoing
Developing an open-source Android 15-compatible app replicating advanced audio processing features.

Kashmiri AI (Native Language AI Assistant)
Created an AI voice model for the Kashmiri language with text-to-speech support. Trained the model for language preservation and accessibility, enabling AI interaction in the native dialect. Focused on building a system usable as a personal AI assistant in Kashmiri.

- networking
- system customization
- hardware upgrades

Achievements & Interests

Hobbies and Interests

Active in badminton and outdoor activities like solo hiking. Keen interest in networking, system customization, and hardware upgrades. Enthusiastic learner in machine learning, operating systems, DBMS
